This page is intentionally generated as an image-only scanned PDF with skew, low contrast, background texture, noise, mild blur, overprint, and mixed spacing.

It is safe for testing OCR pipelines because it contains no real personal data and is not designed to resemble an official identity document.

Expected OCR difficulties include confusing characters such as O/0, I/1/l, S/5, B/8, broken baselines, faint text, and overlapping watermark patterns.

Dummy reference line: A0B3S7I1L0OQ-ZZ99-TEST-ONLY. Arabic sample: test only. French sample: document fictif pour test OCR.
